BTS AirDeck Mobile Access Stair System

## BTS AirDeck Mobile Access Stair System BTS AirDeck MOBILE ACCESS STAIR SYSTEM The AirDeck, Mobile Access Stair System provides a portable means of accessing elevated work areas with a full stairway versus a conventional ladder. The stair-step ladder design provides safe access to and from work areas while carrying tools. A wide variety of options including railing, cages and anchor structures provide ground-up fall protection for your elevated work activities. Depending on the options, the AirDeck can provide safe access to elevated work surfaces from 1.77m (5.80 ft) to 4.72m (15.48 ft).

- Rugged Frame
- Constructed from powder coated aluminium and zinc-plated steel for corrosion resistance and maximum durability
- Full depth Stair design provides sure footing
- Lightweight Easily moved by hand
- Adjustable Height Optimizes utility
