

# LOGIX

## SELF-RETRACTING WEBBING LIFELINE

**LLRZ0W3(SNAPHOOK) LLRZ0W5(SCAFFOLD HOOK)**

The Logix self-retracting webbing lifeline (SRL) is a lightweight fall protection device that can connect to any full body harness. Designed to be used vertically, its self-locking system ensures it's ready to engage in the event of a fall and the webbing is kept under constant tension to reduce the fall distance.

The ZEROR energy absorption system rapidly reduces energy in a fall and the heavy-duty cover protects the lanyard from environmental damage.

<b>CONNECTION:</b> Snap hook	<b>LENGTH:</b> 2.25m
<b>LIFESPAN:</b> Up to 10 Years	<b>RATING:</b> 140kg

**CERTIFICATION:**
